

LESMURDIE  
SENIOR HIGH SCHOOL

# Bring Your Own Device

## 2021 - 2023

Dear Parent/Carer

As you will be aware from previous correspondence, this year has heralded the beginning of Lesmurdie Senior High School's Bring Your Own Device (BYOD) three year roll out.

Students in **Years 7 and 10** participated in the BYOD Program this year. **In 2022** another rollout for **students in Years 7 and 10** is scheduled. As the parent/carer of a student in these cohorts it is important you are aware of this rollout and the implementation process we have developed.

More information on minimum requirements, recommended devices, pricing options, coverage and frequently asked questions (FAQ) is available on the school website at [www.lesmurdie.wa.edu.au/byod](http://www.lesmurdie.wa.edu.au/byod)

We ask that you read through the BYOD Roll Out Information 2021 - 2023 on the website. If you have further questions, please do not hesitate to contact Leo Surjan on 9291 1200.

We are very mindful of the impost this purchase places on parents. As a school, we have placed great importance on digital literacy and have thoroughly researched the most appropriate devices for our students and staff. We have just completed a staff roll out of our recommended devices and they are undertaking extensive professional development and curriculum planning to ensure the BYOD Roll Out program will significantly enhance our education program. Year 7 and 10 students will require their device from Day 1, 2022.

We look forward to your support.

Yours sincerely

Kerry Chipchase
